# CONSTRUCTION UPDATES!

Watching our facility come to life is an incredible experience! We are nine weeks in and so excited to see the progress that has been made!

We now have the second side of drywall up in most of the spaces and HVAC is roughed in. Electric has been pulled and now we are getting ready for some fun stuff!

Flooring has been ordered, the focal play piece is on its way and paint colors are selected! Next steps include floor prep, window and door framing and drywall taping and texturing.

Check out all of our photos and updates on construction at [www.lilyspadaz.org/location](http://www.lilyspadaz.org/location)
